Certifications | Internships

Geekster | Geekster Full Stack Web Development

- Solved 300+ Data Structures and Algorithms (DSA) and coding challenges on Hackerrank and LeetCode, demonstrating strong problem-solving skills.
- Developed projects including:
 - **Google Drive Clone:** Developed a Google Drive Clone for efficient file sharing and collaboration using React JS and CSS.
 - **Resume Generator:** Designed a user-friendly Resume Generator tool for creating professional resumes using HTML, CSS and JavaScript.
 - **Netflix Clone:** Created a Netflix-inspired platform for streaming content with personalised recommendations using React JS and CSS.

Vizmo | Front-end Developer Intern

- Developed and implemented new features for company products using **Vue.js**, **TypeScript**, and **Quasar** for UI styling and components, enhancing user experience and functionality.
- Collaborated with the development team to **identify**, **troubleshoot**, and **resolve** minor to major **bugs**, ensuring smooth product operation and improving code quality.
- Independently managed and completed front-end development tasks, demonstrating strong problem-solving skills and the ability to work autonomously.
- Contributed to the overall development process, gaining hands-on experience in modern web development practices and tools.

Projects

CookBook [[Hosted Link](#)]

- **Overview:** Your ultimate recipe search companion. Dive into a treasure trove of recipes, explore curated categories, and whip up popular dishes effortlessly.
- **Key-features:** Effortlessly search for your favourite recipes, save them to your favourites for easy access, and tailor your experience with the choice of light or dark mode.
- **Tech Stack:** **React** for dynamic UI, **CSS** for sleek design and responsiveness, and the **Edamam API** for comprehensive recipe data.

Netflix Clone [[Hosted Link](#)]

- **Overview:** Immerse in Netflix's world with the responsive web app, featuring Firebase authentication. Explore curated sections: Popular, Blockbusters, Only on Netflix, and Top Picks.
- **Key-features:** Sign-in and sign-up integration using Firebase authentication, curated content sections, responsive design.
- **Tech Stack:** **React-Vite** for fast UI, **CSS** for styling, **Firebase** for secure authentication, ensuring a seamless user experience.

VBlog [[Hosted Link](#)]

- **Overview:** Developed a responsive blogging platform using React, featuring full CRUD functionality, animations, and loaders. Posts, along with timestamps, are stored in localStorage.
- **Key-features:** Full **CRUD** operations for blog posts, responsive and engaging UI/UX with smooth **animations**, post timestamps displaying upload date and time elapsed
- **Tech Stack:** **React** for dynamic UI, **localStorage** for data persistence, **CSS** for styling and animations.

Skills

- **Computer Language** : Java, Javascript, TypeScript
- **Frameworks / Libraries** : ReactJS, VueJS, Astro Js, Tailwind, Quasar, Daisy UI, Redux, Node JS, Mongo DB, Express JS, SQL
- **Tools & Technologies** : Git & GitHub, VS code, Firebase

Education

Year	Degree/Examination	Institution/ Board	CGPA/Percentage
2023	B. Sc (M.E.Cs)	Osmania University	8.14 CGPA
2020	12th	TSBIE	86.40%
2018	10th	TSBSC (SSC)	9.30 CGPA

Achievements and Co-Curricular Activities

- Secured ranks among top 10 in Geekster’s weekly coding challenges July-2023 to October-2023.
- Top performers among Received 5 stars on Hacker-Rank in the problem-solving assessment.
- Mentored team to win Geekster’s Geekathon with a TedTalks Clone.
